In the meantime, Thaw, who is only technically under arrest and not con-fined in the jail, has communicated with his mother and his lawyers in Montreal and Sherbrooke. He spent the whole afternoon in the office of Thomas R. Johnson, the attorney he engaged immediately after his arrest. The warrant under which Thaw was ested was found to be faulty; therefore a new one charging him with conpiracy, an c raditable offense was prepared, and vill be served to-night. Shoved Over Line.

The Sudden shift in the scene of operations was attended by many dramatic incidents.

Fighting and screaming, the noted refusee was taken from his bed at 8 colock this morning, forced to dress and unceremoniously dumped across the border at Norton's Mills, Vt., where he had entered the Dominion. Thaw was absolutely dazed by the absolute precision, the immigration men, who deliberately flouted the decision of the highest court in the Province of Quebec, the Court of Kings Bench, before whom the prisoner was to be brought next Monday on a writ of habeas corpus.

The Dominion policemen assistant to be slayer of Stanford White held tightly sto a box of cigars, which he had seized when leaving Coaticook.

With absolute precision, the immigration inspector took Thaw by the shoulder, led him to the line and pushed him over the border into the State of Vermont. Then the deporting machine turned and healed back for Coaticook.

Thaw stood for a moment half dazed. He gazed inertly to the north, south.

After wandering almiessly.

After wandering about the country criss-crossing Vermont, New Hampshire and the Dominion, Thaw, disheveled and excited after his aimless flight from Norton's Mills, was taken in custody by Sheriff Drew while riding in the automobile of a New York way.

up.
"May I ride with you?" he asked capelly.

The shift in his fortunes just at the time when he thought the Crown was thrown protectingly about him so jarred Thaw's mental processes that his attempts to escape the clutches of those looking for him were abortive.

Even when he had an opportunity to safely board a train his joy-riding egotism displayed itself in his desire to have his identity known everywhere he stopped. This made it comparatively simple for Sheriff Drew to follow his movements.

Drew had been ordered to watch for Thaw by William Travers Jerome, who had flashed telegrams in all directions as soon as he learned of the decision of the Canadian officials. Bernard Jacobs, former prosecutor in Colebrook and special representative of New York State, swore out the warrant under which Thaw is now held.
